

Congratulations on your purchase of an ENERGY STAR® certified pool pump. It's good for you, your family and the environment.

Saving Energy Equals Saving Money

A key component of a healthy pool is the pool pump, which recirculates water through a filter to maintain water clarity and hygiene. All swimming pools have at least one recirculation pump, but many have multiple pumps. Many pool owners don't realize how much energy their pool pump may be wasting. Pool pump speeds vary based on the pool's operation. Filtration, for example, only requires half the flow rate of running a pool cleaner. Conventional pool pumps, with only one speed, are set to run at the higher speeds required of the pool cleaner and waste energy during filtration operation by running faster than necessary.

An ENERGY STAR certified pool pump can run at different speeds and can be programmed to match the pool operation with its appropriate pool pump speed. The energy saved is considerable; reducing pump speed by one-half allows the pump to use just one-eighth as much energy.

ENERGY STAR Certified Pool Pumps May:

- May save you more than \$1,000 over their lifetime.
- Pay for themselves in about 2 years with our rebate.
- Run more quietly and prolong the life of your pool's filtering system.

Product Qualifications:

- ENERGY STAR certified models only (single-speed models do not qualify)
- Pool pumps must be a qualified new unit (rebuilt motors do not qualify)
- Installed in an in-ground pool only

ENERGY STAR Certifies the Following Types of Pool Pumps:

- "Wet end" and motor pool pumps
- Residential pool pumps
- Multi-speed and variable-speed pool pumps that are capable of operating on at least two speeds
- $0.5 < \text{Total HP} \leq 4$
- Single phase pool pumps

Did You Know?

If all pool pumps sold in the United States were ENERGY STAR certified, we would save about \$113 million per year on our energy bills and prevent greenhouse gas emissions equivalent to those from 140,000 cars.

ENERGY STAR® Certified POOL PUMP

\$200 MAIL-IN REBATE

Get \$200 back on your purchase of a new ENERGY STAR certified pool pump for your in-ground pool. This rebate is good for purchases made between March 1, 2019 through December 31, 2019. This offer cannot be combined with any other Ameren Missouri rebate or incentive. Limit two rebates per residential electric customer account. To receive your rebate, please fill out this form completely and mail or email it to one of the addresses listed or visit AmerenMissouriSavings.com/efficientproducts to apply online. Please allow up to 8 weeks to receive a rebate check once a completed rebate application has been received by the rebate processing center.

Please include a copy of your dated sales receipt and/or invoice showing the manufacturer, model number and price of the ENERGY STAR certified pool pump purchased. Incomplete information will delay or disqualify your rebate. All rebate requests must be postmarked no later than December 31, 2019. See AmerenMissouriSavings.com/efficientproducts. Some restrictions apply.

Thank you for participating in this program. Please note you may be contacted by an independent program evaluator who will ask you questions about the product and energy efficiency. If you feel that the Ameren Missouri Efficient Products Program helped you make the decision to purchase a more energy efficient pool pump and you would like to see more programs like this in the future, we hope you will let them know.

By participating in this program, you agree to receive emails from Ameren at the email address provided for this program. These emails may contain information about Ameren's products and services; other energy related products, services and programs; as well as energy related legislative and environmental issues. These emails may be sent by Ameren or third parties.

Some restrictions may apply. To learn more about other energy efficiency programs, visit AmerenMissouriSavings.com/efficientproducts.
